Once I've processed your request, you'll receive an email inviting you to access a folder corresponding to the character you have purchased.

Click on the link. If you aren't logged in to the site, you will be prompted to do so.

You should now see the archive page for all of the old character versions. Simply check off the one you want and click "download".

The zip file contains a UNITYPACKAGE file in the state it was in for that version. You can import it into your Unity project as a custom package.
